

The Exam Environment

When you start the exam, you will have a window that looks like this:

The screenshot displays the Examplify exam environment. At the top, a dark navigation bar includes the Examplify logo, the exam title "21000 Wills Trusts Estate...0 Spring Final Exams | JOSHUA STEWART", "Exam Number:", "TIME REMAINING", "EXAM CONTROLS", and a "TOOL KIT" button with a three-dot menu icon. Below this is a "FILTER" sidebar with a list of question numbers 1 through 5, where question 3 is selected. The main content area shows "Question 3" with a "FLAG QUESTION" button and a right-pointing arrow. The question text reads: "Settlor (S) set up a revocable inter vivos trust 5 years ago for the benefit of his adult children, X and Y. The trust's purpose was to provide each child with 'a fine college education as far as the child wishes to progress.' In the event a child chooses not to pursue an education, his share is to be distributed in accordance with his medical needs and maintenance until termination. The trust is to terminate next year and the proceeds distributed outright to X and Y. S is now deceased. Trustee (T) was not sure whether to make distributions to X and Y because X chose to go to a community college over T's objection, and Y chose to attend a Culinary College, also to T's dissatisfaction. T had many conversations with S on how the distributions should be made. Explain whether X and Y have an action against T." Below the question is an "Essay Answer" field with a character count of "0 / 100000 characters". A text box in the center of the answer area contains the instruction: "The exam question and your answer will be in the middle section". A rich text editor toolbar is visible above the answer field, featuring options for bold, underline, italic, text color, background color, bulleted list, numbered list, indent, and link. A large black arrow points from the left sidebar towards the text box. Another large black arrow points from the text box towards the "Next" button in the bottom right corner. The bottom of the interface shows "3 OF 5 QUESTIONS" and "VERSION 2M.3.4" on the left, and "Previous" and "Next" buttons on the right.

The Tool Kit button in the upper left is of special interest because it shows how much time you have left in your exam.

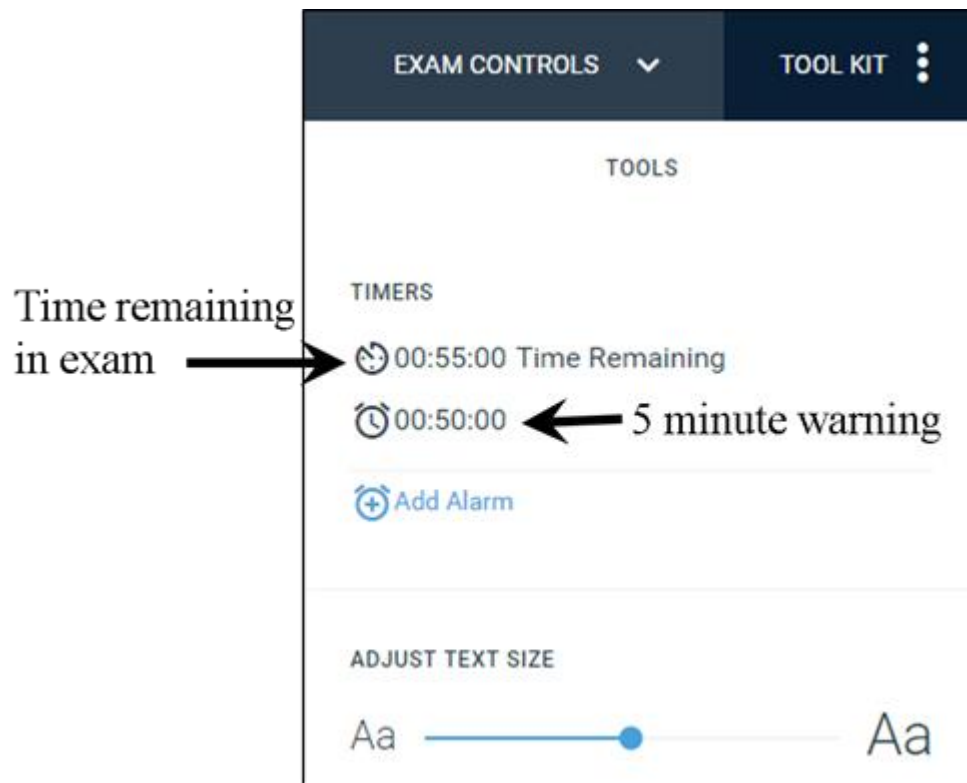

The Tool Kit shows the time remaining in the exam, and allows you to add an alarm timer.

There is already one alarm set for you to give you a five minute warning before the end of the exam. You can set your own alarms to help you track your time as you go through the exam.

When the alarm goes off, you will see an icon like this at the top of the window:

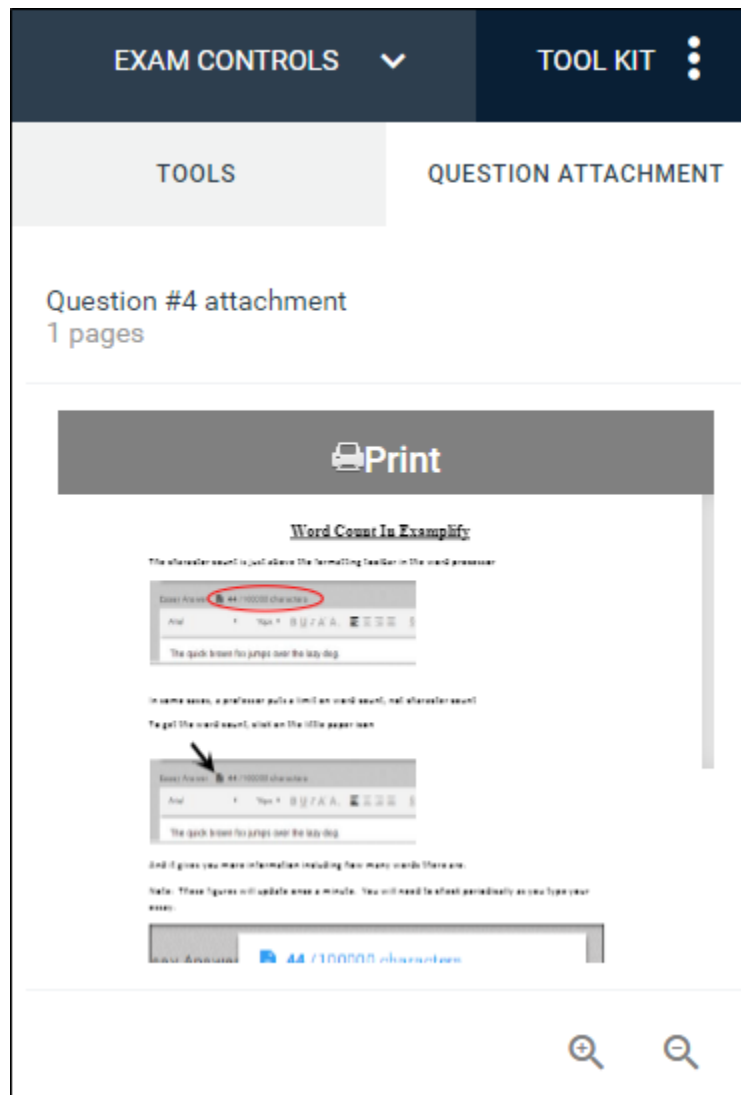

The "Adjust Text Size" at the bottom lets you adjust the size of the text in the question.

You may have an exam question that has a text or picture file attached. The attached file will show up in the Tool Kit next to the tools tab.

You can click on the file to pop it out in its own window.

The screenshot displays the exam interface. At the top, there are two tabs: "EXAM CONTROLS" and "TOOL KIT". The "TOOL KIT" tab is active, showing a "QUESTION ATTACHMENT" section. Below this, the question is titled "Question #4 attachment" and "1 pages". A "Print" button is visible. The main content area shows a word count tool interface. The tool displays the text "Word Count In Exemplify" and "The word count is just above the formatting toolbar in the word processor". It shows a word count of "44 / 100000 characters" with a red circle around the number "44". Below this, it says "In some cases, a professor puts a limit on word count, not character count. To get the word count, click on the little paper icon". An arrow points to a small paper icon in the word processor interface. At the bottom, it says "And it gives you more information including how many words there are." and "Note: These figures will update once a minute. You will need to check periodically as you type your essay." A progress bar at the bottom shows "44 / 100000 characters".
